RE: Manifest Number MI 0050285

Dear Ms. Garrison;

In response to your letter dated July 27, 1983, in which you requested that Manifest number MI 0050285 be corrected and returned to your office, I have enclosed a corrected copy of the Manifest in question. The waste trichlorethylene shipped via this Manifest is a Michigan Act 64 (Hazardous) waste and the "Act 64 box" should have been "checked" for this waste type. This oversight has been corrected on the attached Manifest form.

Although the physical location of Davis Manufacturing (a division of Masco Corporation) has not changed since the company was issued an EPA identification number, the postal address has. Davis Manufacturing Company is located at 930 Livernois, Troy, Michigan 48084, the address given on the Manifest. Mail formerly delivered to Davis by the Clawson post office is now being delivered by the Troy post office. At present, we are in the process of notifying EPA Region V of this address change.

Should you have any further questions, please do not hesitate to contact me at Masco Research and Development (313) 291-3500.

Sincerely,

John M. Cullen  
Environmental Engineer
